Don't let the cold weather keep you from watching your amazing bird life. Make a cup of coffee, grab a warm blanket, find a nice sunny spot in your garden and do a Birds in Backyards Winter Survey. Once you have registered your [free Birdata account](#), read the [instructions](#) or [watch the video](#). Download the Birdata app and take your smartphone or tablet outside with you and just record all the birds you seen in your space in 20 mins.

This season you could also win a great prize pack just by referring a friend and having them do a survey too. Spread your love of birds and get others involved too.
